
BELZONA® 3111 FLEXIBLE MEMBRANE SEALS SKYLIGHTS

CUSTOMER

UNIVERSITY CAMPUS
Victoria, BC

APPLICATION DATE

August 2003

PROBLEM

The skylights were situated over a major gathering area. Constant leaking created major safety issues and other problems

PRODUCTS

Belzona® 3111 Flexible Membrane

SUBSTRATE

Aluminum, Plexiglas, Metal flashing and bituminous sealant.

APPLICATION METHOD

Application carried out in accordance with Belzona® Know-How Leaflet RPA-3

BELZONA FACTS

Because of the variable substrates, angles and other complexities of the structure it was difficult to maintain a permanent and effective seal. Belzona® 3111 with its various primers is able to bond permanently to any substrate as well as provide a seamless finish for this complex structure.
