
BELZONA® EFFICIENCY COATING FOR JET DUCTS

CUSTOMER
FERRY OPERATOR
Vancouver, BC.

APPLICATION DATE

August 1999

PROBLEM

Water flow through the ducts needed to be improved along with a decrease in surface turbulence

PRODUCTS

Belzona® 1341 Suermetalglide

SUBSTRATE

Aluminum

APPLICATION METHOD

Application carried out in accordance with Belzona® Know-How Leaflet SOS-2

BELZONA FACTS

Because of the very slick nature of the coating it has the ability to improve flow and reduce turbulence in fluid flow situations.
