
BELZONA® PROTECTS RUBBER PIPES FROM UV ATTACK

CUSTOMER

Wastewater Treatment Plant
Nanaimo, BC.

PROBLEM

The flexible natural rubber pipes would be attacked by the UV rays making them brittle

PRODUCTS

Belzona® 3211 Lagseal

SUBSTRATE

Rubber

APPLICATION METHOD

Application carried out in accordance with Belzona® Know-How Leaflet FPA-1

BELZONA FACTS

This application has provided protection to various similar pipes for more than 15 years.

PHOTOGRAPHS

1. Application in progress. Rubber pipes are first wrapped tightly with plastic foil. This eliminates a possible leaching discoloration problem that occurs when overcoating rubber.
2. All stainless steel flanges are coated with Belzona® 3921 GSC Conditioner
3. Application of 1st coat of Belzona® 3211 in progress.
4. Application completed.
